New Mexico

URS Table Number	General Notes
2A	Medicaid services were greatly expanded in January 2014 with carved-in behavioral health, expanded membership due to ACA, and enhanced services, resulting in increased client counts and services. Only half of FY14 was affected by this change, and FY15 includes all of it, so FY15 is larger.
3	Medicaid services were greatly expanded in January 2014 with carved-in behavioral health, expanded membership due to ACA, and enhanced services, resulting in increased client counts and services. Only half of FY14 was affected by this change, and FY15 includes all of it. Community-based services were a special focus of the enhanced service package, with resulting increased counts. With increased availability of private insurance and Medicaid inpatient psychiatric care, we believe more are going to local hospital care rather than the state institution.
4	With increased Medicaid services and decreased non-Medicaid services, more data comes from Medicaid sources (MCO's) and less from non-Medicaid. Since Medicaid sources rarely provide complete employment information that non-Medicaid sources have been structured to deliver, data is less complete.
5A	Medicaid services were greatly expanded in January 2014 with carved-in behavioral health, expanded membership due to ACA, and enhanced services, resulting in increased client counts and services. Only half of FY14 was affected by this change, and FY15 includes all of it. For FY14, we could not easily identify those with only Medicaid or non-Medicaid funding, or with both. For FY15, we have complete information on fund source.
6	We improved specificity in our data and analysis methods allows more accurate and precise counts of those served at the beginning and end of year and during the year, compared to 2014. No children were in the State Hospital in 2015, so we have no LOS data for children. More consumers are being routed to community outpatient substance abuse treatment rather than RTC's, hence the decline in RTC use.
8	The FY14 figures did not include planning council and technical assistance costs, while those costs are included in FY15, hence an increase. Also, increased services in FY15 meant increased indirect admin costs.
12	More children are getting services, including proportionately more with less severe conditions. We are better able to detect adult SA diagnoses in MH population from claims data, but child co-occurring remains low in reports due to rarity of clinicians entering that diagnosis for minors.
14A	Increased total population size being served means increased counts for subgroups as well, and better measurement of diagnoses allows better detection of SMI SED by algorithms. Race coding changed from FY2014 due to increase of Medicaid-sourced data, with its different recording process, meaning differing tallies of multiracial categories.
14	Diagnoses included in SED definition: 291.0, 291.1, 291.2, 291.5, 291.81, 291.84, 292.0, 292.11, 292.12, 292.81, 292.84, 292.89, 292.3, 293.81, 293.82, 293.84, 295.10, 295.20, 295.30, 295.40, 295.70, 296.0x, 296.2x, 296.3x, 296.40, 296.4x, 296.5x, 296.6x, 296.7, 296.80, 296.89, 296.90, 297.1, 297.3, 298.8, 298.9, 300.0, 300.01, 300.02, 300.11, 300.12, 300.13, 300.16, 300.21, 300.22, 300.23, 300.29, 300.3, 300.4, 300.7, 300.80, 300.81, 300.89, 301.13, 302.2, 302.3, 302.4, 302.72, 302.73, 302.74, 302.75, 302.76, 302.79, 302.81, 302.82, 302.83, 302.84, 302.89, 302.9, 303, 303.90, 304.00, 304.10, 304.20, 304.30, 304.40, 304.50, 304.60, 304.80, 304.90, 305.00, 305.1, 305.20, 305.30, 305.40, 305.50, 305.70, 305.90, 306.51, 307.1, 307.21, 307.22, 307.23, 307.3, 307.51, 307.52, 307.53, 307.59, 307.6, 307.7, 308.3, 309.21, 309.81, 311, 312.31, 312.32, 312.33, 312.34, 312.39, 313.23, 313.81, 313.89, 314.00, 314.01, 314.82, 314.89, 314.9, 607.84, 608.89, 625.0, 625.8, 787.6
15	With increased Medicaid services and decreased non-Medicaid services, more data comes from Medicaid sources (MCO's) and less from non-Medicaid. Since Medicaid sources rarely provide complete housing information that non-Medicaid sources have been structured to deliver, housing data is less complete and so FY15 counts are low.
16	Support Housing data is not available this year. The increases in total number of SMI, TFC and MST services are due to increased service availability and Medicaid/non-Medicaid eligibility with Medicaid expansion.
